Fuel Injector Cleaner
(Fluid – Gas Tank Additive)
This unique blend of solvents, polymeric dispersants and the patented
FX-216® cleans fuel injectors and intake valves without disassembly.
Just add to the gas tank to remove varnish, gum, sludge and carbon
deposits and improve engine power and fuel efficiency.

Benefits
• Removes varnish, gum, sludge and carbon deposits
• Improves engine power, performance and fuel-efficiency
• Decreases harmful hydrocarbon and carbon monoxide emissions
• No disassembly required
• Oxygen-sensor safe
